

Jackie's Corn Casserole Recipe:

Mix together in large bowl:

- 1 stick butter (1/2 cup) melted
- 1 cup sour cream
- 1 egg

Stir in:

- 1 can cream style corn
- 1 can whole kernel corn (drained)

Add:

- 1 (9oz) package corn muffin mix

Place in greased 2-quart casserole dish.

Bake at 375 degrees for 1 hour, until crispy on top and center is not jiggly.

*NOTES: I generally make a triple recipe for gatherings & that fills two 9x13 inch pans. If what you need to make fills your pan deeply, it will take more than an hour to be cooked in the center.
